

To Each His Own: Accessorizing the PC for Every Lifestyle

Americans are wishing for peace and happiness this holiday season – almost as much as a new PC! According to new research from the Consumer Electronics Association, computers are the number one item on U.S. adults' holiday wish lists for 2007. Peace and happiness rank second, followed by a big screen TV, clothes and money. The survey shows that many tech-savvy teens are also dreaming of PCs, which rank fourth on their list.

Perhaps no other gift is as personal as the PC, when you consider that everyone uses them differently. All you need are a few easy-to-use accessories to transform your computer into a handy study tool, a mobile office, a film studio and photo lab, a powerful gaming machine or a symbol of your personal style!

The experts at RadioShack have hand-selected a set of accessories for different lifestyles and uses of the PC. If you're shopping for a PC this season, RadioShack can help you give the *entire* solution. And if you're lucky enough to receive one, see for yourself how RadioShack can help you do more with your new technology.

The Student

RadioShack can help high school and college students make the grade. The following accessories are sure to ease the agony of grueling school work.

- [Printer](#) - A reliable printer relieves the stress of having to run to the library to print a big assignment at the last minute. RadioShack offers a wide selection of printers, such as the space-saving **HP C4280 All-in-One Printer**, that will come in handy during midterms and finals.
- [Multiport USB Hub](#) - Add four extra USB ports to your notebook PC so you can use all of your USB compatible peripherals. The **Gigaware 4-port Hub** offers a retractable cable in a slim, compact design that's ideal for sticking in a backpack or pocket. It supports both high and low data transfer rates and is bus powered, so no AC adapter is required.
- [Wireless Keyboard & Mouse](#) - A wireless keyboard and mouse can help save space on a small desk in the dorm room. A great option is the **Logitech Cordless Desktop EX 110 Keyboard & Mouse Combo**. Fewer wires means easy set up and no more tangled cables.

The Business Executive

RadioShack can make traveling more enjoyable and productive executives on the road.

- [Travel Mouse](#) - The compact **Gigaware Mini Wireless Optical Mouse** with a hideaway USB makes working in airports and planes much easier. It also has a rubber coating that is anti-bacterial to give you an extra level of protection.
- [Noise Canceling Headphones](#) - Can't concentrate with the crying baby in the airplane seat next to you? Increase productivity with the **Sony® MDR-RNC6 Noise Canceling Headphones**.
- [Universal Power Adapter](#) - RadioShack's line of **iGo Everywhere power adapters** is ideal for executives who travel with multiple portable electronics. With

the switch of a tip, travelers can use one adapter to charge their notebook PC, wireless phone, PDA or digital camera from an airplane, car or wall outlet.

The Content Creator

With the right technology, anyone can create digital content – photography, movies, music and more – as a profession or simply a hobby. Here are some ideas for the content creator.

- [Digital Camera and Camcorder](#) – With the **Canon EOS Digital Rebel XT 8.0MP Digital SLR Camera**, photographers can capture anything from exciting sports shots to traditional portraits and easily upload photos to the PC. For videographers, the **Sony DCR-DVD 108 DVD Handycam® Camcorder** is a great option.
- [Flash Drive](#) – Avid content creators should never leave home without portable memory like the **SanDisk Cruzer® Micro 4GB ReadyBoost USB Drive**. It's an easy way to store videos, photos, and music for easy transfer between computers.
- [Voice Recorder](#) – Gadgets like the **Olympus VN-3100 PC Recorder** are especially handy for podcasters. You can easily record thoughts and interviews on the go and then transfer the MP3 file directly to your PC. And it fits in your pocket!

The Gamer

Gamers take their sport very seriously. Not only does RadioShack sell some of the hottest PC games online, but it also offers a broad assortment of gaming accessories.

- [PC to TV Converter](#) – For a larger-than-life gaming experience, RadioShack suggests using the **PC to TV Converter** to take the game onto the big screen. This can make a world of difference!
- [Gaming Headset](#) – The **Gigaware USB Stereo Headset with Microphone** allows gamers to talk with their own team and opponents during heated competition.
- [Joystick & Gaming Keyboard](#) – Intense gaming requires a level of precision and motion control beyond what the standard PC keyboard can offer. In this case, RadioShack suggests the **Saitek Cyborg EVO Wireless PC Stick** and the **Logitech® G15 Gaming Keyboard**, which allow you to maneuver effortlessly through the electronic world. Both products are available online at RadioShack.com.

The Fashionista

Lastly, accessorizing in the name of fashion is always a good idea! Equip the fashionista with tools and gadgets that make the PC chic and trendy.

- [Laptop Case](#) – Help the shop-a-holic stay fashionable with a striking laptop case. RadioShack offers many different types like the **icon Women's Laptop Tote with Pink Trim** or the **Built NY 17" Dot Pattern Laptop Sleeve**, which provide personal style and practical protection.
- [Webcam](#) – Find out if your outfit is fashionable by talking live with friends using the **Gigaware PC Camera with Microphone**. You can now compare outfits and seek opinions from friends before heading out the door.
